CRYPTANTHUS BROMELIADS

HARDINESS ZONE 9

Small Varieties

BIVITTATUS

PINK STAR

RED STAR

RUBIN STAR

FEATURES

- Easy to grow
- Succulent leaves with serrated edges
- Flat, star-shaped, colorful rosettes
- Beautiful range of colors

PRODUCT USES

- House plant
- Great terrarium plant
- Patio pots
- Combination pots
- 3, 4, 5 & 6 inch pots sizes

GROWING INFORMATION

- Light Levels: Prefers bright, indirect light
- Watering: Unlike other Bromeliads, they have no cup for watering, but need to be watered at the roots
- Soil type: Need well-draining soil
- Provide with at least 50% humidity
- Fertilizer: Fertilize with balanced fertilizer

AVAILABLE AS

- Unrooted cuttings (URC)

Bromeliad Cuttings

HARDINESS ZONES 9-11

FEATURES

- Striking foliage in an array of colors and patterns: Green, Orange, Pink, Purple, Red, Silver, White, Yellow & Variegated
- Easy to maintain
- Adds color and interest to homes
- Improves indoor air quality

PRODUCT USES

- Houseplants
- Patio pot in shady area
- Mounted onto ornamental driftwood or trunks of trees
- Focal point in landscape design

GROWING INFORMATION

- Light levels: thrive in bright, indirect sunlight.
- Watering: Fill the central vase of the plant with water, emptying and refreshing it every few weeks to prevent stagnation and bacterial growth.
- Humidity: High humidity levels mimic their natural tropical environment.

Neoregelia	Pot Size	PPP
Small (Fire Ball, Donger, Zoe, Red Waif)	4 inch	1
Small	5, 6 inch	3
Large (Tricolor Perfecta, Magali)	5, 6, 8 inch	1

Comments:

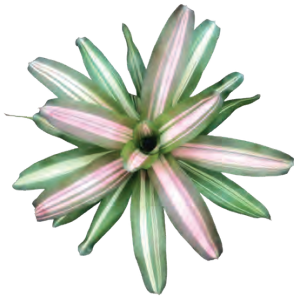

Smaller Neoregelia should plant 3ppp to fill up the pot quickly, if it is planted 1ppp it will take too long and topple over from being heavy.

NEOREGELIA & AECHMEA

BROMELIADS

Cuttings for foliage applications

Some genera of bromeliads are more well known for their colorful foliage than others. Neoregelias have flowers that are set deep within the central cup, they are not very showy. However, the foliage of most Neoregelias is spectacular. They often blush bright colors toward the center of the cup. Many have beautiful banding and unique dark colors. **Best of all, once they color up the color stays!**

BENEFITS OF CUTTINGS VS. TISSUE CULTURE:

- Higher rate of salable plants then those coming from Tissue Culture
- Shorter grow time than TC; more turns equals higher profits
- Cuttings will be identical to the mother plant, alleviating sports that can come from TC material, including the tubing that TC varieties can display
- No gassing required for green leaf varieties (ie. Cotton Candy & Magali)

AECHMEA 'MEND'

LARGE, 6" Pots | BRIGHT LIGHT

Foliage Color: pink-green

Inflorescence: purple-green

Premium Annual, Hanging Basket, Foliage, Landscape

NEOREGELIA 'ANDRE'

LARGE, 4-6" Pots | BRIGHT LIGHT Foliage

Color: green-yellow

Inflorescence: red

Premium Annual, Hanging Basket, Foliage, Landscape

NEOREGELIA 'COTTON CANDY'

LARGE, 4-6" Pots | LOW-MEDIUM LIGHT

Foliage Color: light green

Inflorescence: pink

Premium Annual, Hanging Basket, Foliage, Landscape

Refer to AECHMEA & NEOREGELIA BROMELIADS GROWING INSTRUCTIONS

*PATENTED. GROWER'S PERMISSION REQUIRED.

NEOREGELIA 'FANCY'*

LARGE, 4-6" Pots | BRIGHT LIGHT
Foliage Color: green-white
Inflorescence: purple
Premium Annual, Hanging Basket, Foliage, Landscape

NEOREGELIA 'FRANCA'*

LARGE, 4-6" Pots | BRIGHT LIGHT
Foliage Color: white-green
Inflorescence: pink-purple
Premium Annual, Hanging Basket, Foliage, Landscape

NEOREGELIA 'FREDDY'

LARGE, 4-6" Pots | BRIGHT LIGHT
Foliage Color: green-light green
Inflorescence: orange-red
Premium Annual, Hanging Basket, Foliage, Landscape

NEOREGELIA 'LILA'

LARGE, 4-6" Pots | LOW-MEDIUM LIGHT
Foliage Color: green-purple
Inflorescence: pink-purple
Premium Annual, Hanging Basket, Foliage, Landscape

NEOREGELIA 'MAGALI'

LARGE, 4-6" Pots | LOW-MEDIUM LIGHT
Foliage Color: green
Inflorescence: deep red
Premium Annual, Hanging Basket, Foliage, Landscape

NEOREGELIA 'PUPPY LOVE'

LARGE, 4-6" Pots | LOW-MEDIUM LIGHT
Foliage Color: green
Inflorescence: pink
Premium Annual, Hanging Basket, Foliage, Landscape

*PATENTED. GROWER'S PERMISSION REQUIRED.

NEOREGELIA & AECHMEA BROMELIAD

Growing instructions especially for indoor grown varieties

I. GROWING INFORMATION*

❖ Temperature	Ideally 68- 77°F but tolerate much more extreme conditions).
❖ Light Levels	1st stage (rooting stage) 930 foot candles– 2 nd stage (final distance) 2300 foot candles.
❖ Relative Humidity	Ideally a minimum of 70% but tolerate much more extreme conditions.
❖ Fumigations	Preferably fumigate in the early morning or late afternoon. There must always be water in the funnel when fumigating. Be careful with chemicals.
❖ Water	2x per week overhead. There must always be water in the funnel. Do not overwater the medium. Better to keep the plants on the dry side.
❖ Soil	Well-drained soil with a high content of organic material. Preferable peat moss. EC of 0.5 and pH of 5.
❖ Fertilizer	No Boron (toxic for Bromeliads) – EC 1.0 – 1.5, pH 5.5. Neoregelia take fertilizer up through the leaves / funnel. N-P ₂ O ₅ -K ₂ O-CaO-MgO ratio 1.2-1-1.5-0.9-0.4
❖ Diseases	Be aware of fungus, especially in wet conditions (Helminthosporium, Fusarium).
❖ Potential Pests	Scale, mealy bugs, slugs, snails

Growth Rates*

- In 4" Pots: 12-16wks
- In 6" Pots: 16-20wks

*Grow time can vary according to growing conditions.

Product Uses

- In a combo pot mixed with a trailing succulent
- As houseplants in pots
- On shade patios
- Mounted onto ornamental driftwood or stems
- As a focal plant

II. ADDITIONAL INFORMATION

CAM METABOLISM:
Neoregelia is a CAM plant.

- Always pack the plants without water in the funnel. It is better not to water the plants before 9:00am.
- Do not handle the plants early in the morning. It is better to pack them the day before.

*General growing information. Specific requirements will vary depending on a variety of factors.

TILLANDSIAS

Grown In Our Greenhouses: Not In The Wild!

FEATURES

- No illegal collections from the wild
- Cleaner material, free of pest and diseases
- Less chemicals used during production
- More predictable production
